

The 13th Hellenic Astronomical Conference
2 - 6 July 2017, Heraklion

[[View Abstracts by Session](#)]

Session: Stars, Planets and the Interstellar Medium

Name: Dr. Iason Spyromilio (ESO)

Coauthors: No coauthors were included.

Type: Oral

Title: Supernova 1987A at 30

Abstract:

Supernova 1987A exploded 30 years ago this year. Observations of this remarkable object have revolutionised the astronomy of supernovae but also have had profound implications in many other fields. A brief overview of some important results from the past shall be made as well as an update on the most exciting results from ALMA, VLT and HST.
