

POSTDOCTORAL POSITION IN ASTROPHYSICS

**Foundation for Research & Technology – Hellas (FORTH)
and University of Crete, Greece**

The Astrophysics Group at FORTH and the Department of Physics at the University of Crete (Greece) advertise an opening for **one postdoctoral position** on "**X-ray studies of AGN/galaxies**". The successful candidate is expected to be self-motivated and have experience in X-ray data analysis. Experience with the data acquisition and analysis from optical telescopes is a plus. For further details you may contact Prof. Iosif Papadakis at "jhep@physics.uoc.gr". The duration of the position is for a period of 2 years with a net monthly salary of ~2,000 Euros. The starting date is negotiable but should be before the beginning of March 2009.

Interested applicants are requested to send a cover letter with a CV, publication record, and description of research interests along with the names of three individuals who could write letters of recommendation, to Prof. Nick Kylafis, Dept. of Physics, Univ. of Crete, P.O. Box 2208, GR-71003 Heraklion, Greece. Applications by e-mail to "kylafis@physics.uoc.gr" are strongly encouraged. Applications received before December 1st 2008 will be given full consideration.

The research interests of the Astrophysics Group include: X-ray timing and spectroscopy of AGNs, the ISM, and discrete X-ray source populations in galaxies, high resolution spectroscopy of the intergalactic medium and of AGN outflows. Information on the activities of the Crete Astrophysics Group and Skinakas Observatory can be obtained from:
